

GETTING STARTED

HOW TO SET UP THE SYSTEM

CONNECT YOUR DEVICE

1. **Plugin power cord** or PoE **ethernet cable** if not using **Wi-Fi**.
2. **Power on the device.**

Qbic startup screen starts with a 20 seconds countdown before Digital Sign service automatically starts. Tap the countdown to cancel it temporarily.

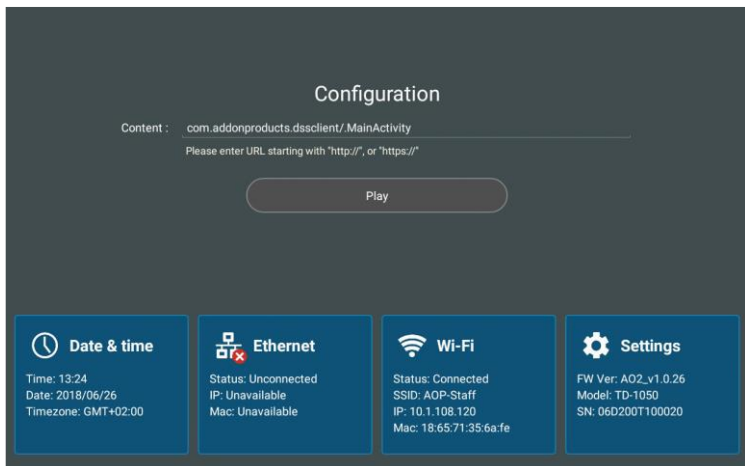

3. Tap the **WiFi or Ethernet section**.

For the **WiFi setting**, please go to the WiFi page and **switch on the WiFi button**. After the automatic WiFi scan, **select your desired WiFi**.

For **Ethernet**, the network will automatically connect when you plug in the Ethernet cable

4. Tap on the **HOME (O)** button to **return to Qbic Startup screen**.

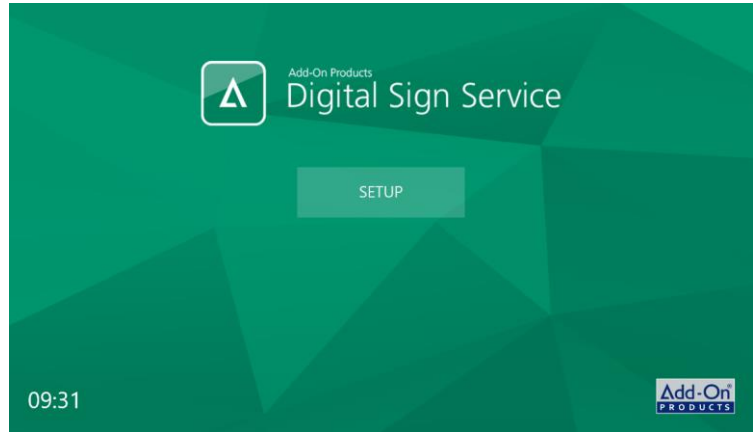

DATE & TIME SETTINGS

5. Tap on the **Date & time section** to change or adjust your date / time.
6. Make sure the **clock and time zone are correct** for your location.

With **Automatic date & time** you can set date / time either by network or set manually. You can select a different time zone by tapping "Select time zone".

7. Tap the **Home (O)** button to **return to Qbic startup screen**.

Digital Sign Service will automatically start after 20 seconds.

USING OUR DEMO SERVER

8. Tap **SETUP** button for configuration of Digital Sign Service.

9. Make sure the Server is **dss.add-on.com**

10. Tap the **SAVE** button on the top of the page.

The meeting room sign appears, and you are now able to book a meeting and trial the system.

LATER CUSTOMIZATIONS

11. Tap the **logo image** to enter the setup screen.

12. If you want to remove the navigation bar at the bottom of the screen, select **Advanced** and turn on **Kiosk mode**

13. Change your settings and tap **SAVE** for saving and exit.
(Update server address, change logo, etc.)
